

## CLIP-IN CEILUX 45 CRIUS

Our Rippled stainless steel ceilings create a fascinating water reflection that transforms any space. The mirrored surface with its unique texture dynamically captures and reflects light, resulting in a vibrant play of light and movement. This special finish lifts a functional ceiling system to the level of architectural art.

- Stainless steel in tumbled mirror finish.
- Full tiles without perforations.
- The four edges are chamfered at an 45° angle.
- This creates a V-groove between the tiles.

Fire reaction of the tiles: A1  
 Release of hazardous substances: none  
 Bending resistance: Class 1  
 Durability galvanised tiles: B  
 Durability painted tiles: C
